ITALIAN  ENGINEERING

Bremed Breast Scan BD 2200

It's almost two decades that **Bremed** is a success story of a family owned business which originated in Italy and commitment has been to place on the market innovative and high quality products in order to satisfy the needs of the customers worldwide.

The **Bremed R&D** laboratories controls the materials and the components as well as the final product; it's a basic department for checking the compatibility of the articles, which must be manufactured following the most strict internal rules and it's a brilliant example of combining.
